SEPTEMBER 2012

1. SYSTEM AVAILABILITY:

	AFIS	Enterprise Network Infrastructure	GoNET/2200	IBM System	NCIC Files	NICS	NLETS
Max Hours Possible for Month	744.00	744.00	744.00	744.00	744.00	744.00	744.00
Downtime (Hours)	3.25	13.25	0.00	13.50	9.00	9.00	3.00
Degraded (Hours)	0.00	0.00	0.00	0.00	0.00	0.00	0.00
Percent Available for Month	99.56%	98.22%	100%	98.19%	98.79%	98.79%	99.60%

2. AUDITS:

During the reporting month there were 20 full service audits conducted. There were 8 on-site audits conducted for agencies obtaining “inquiry only” from the CJIS network; 9 criminal justice E-Audits; 31 non-criminal justice audits. The total number of audits conducted during **FY2013: 167**.

3. TRAINING:

GCIC personnel provided 304.75 hours of training to 1,779 criminal justice agency employees during the month.

4. AFIS REPLACEMENT

Project Description: GCIC is replacing the Georgia Bureau of Investigation’s 22 year old Automated Fingerprint Identification System (AFIS). The AFIS replacement enhances fingerprint identification services to permit identification of criminals more rapidly through the use of state of the art alternative search methods and information sharing.

Monthly Update: Weekly AFIS Replacement Project Manager and Monthly Executive status meetings are held to assure that the project remains on track.

On September 25th the Reliability testing phase began. Reliability testing runs consecutively for two weeks.

5. SEX OFFENDER REGISTRY RE-DESIGN PROJECT

Project Description: Georgia’s Sex Offender Registry (SOR) was created in 1996 and the purpose of the SOR is to provide law enforcement with an efficient and effective method of monitoring sex offenders. In 2010, the Georgia Department of Audits and Accounts Performance Audit Operations conducted an audit on the Georgia SOR and their findings indicated that the SOR is an outdated and inflexible computer system; the registry does not fully meet the needs of law enforcement monitoring and investigating sex offenders and that the public website should provide more complete and accurate information. The information contained in the audit validated issues GBI had noted for some time regarding the need to improve and modernize the SOR.

To remedy the current database limitations, the Georgia Bureau of Investigation (GBI) seeks to modernize and replace the SOR using web technologies, which will allow GBI to accommodate requests from sheriffs and other customers. Moving to web technologies will ensure greater flexibility for the State to incorporate future updates or enhancements as dictated by state or federal legislation, operational needs, or public demands. Increased

capabilities would also allow the sex offender database to link to other databases to help improve record accuracy or offender tracking, such as address verification or developing a link with the Department of Corrections for information on re-incarceration of offenders. Offender images would be stored in a format allowing sharing with the Federal Bureau of Investigation's (FBI) National Crime Information Center (NCIC) Convicted Sex Offender File for use by all criminal justice agencies throughout the United States. Access to the public registry would be real time instead of 24 hours old as with the current process of providing a daily update for public web presentation.

Monthly Update: The integration of web services through LEMS/JX to allow SORT to connect to the National Crime Information Center (NCIC) is delayed by the contracted vendor (Unisys). This delay changed the scheduled operational date to October 15, 2012.

- User Acceptance Testing (UAT) for the SORT system continues.
- The Change-Over process to move sex offender data from the existing Legacy system to the new SORT system was moved to October 2, 2012. At this time, the users will be notified with a broadcast message that the Sex Offender Registry will be in inquiry/read-only status until the change-over is completed. The scheduled date of operation for the SORT system is Monday, October 15, 2012

The following tasks are pending completion before change-over begins:

- Completion of the webservices connection between SORT and LEMS/JX
- Electronic submission of SORT transactions to NCIC

6. SERVER CONSOLIDATION PROJECT

Project Description: The Georgia Technology Authority (GTA) will be consolidating production, test and developmental servers to the NADC. Consolidation and virtualization will enable the state to reduce the number of servers being supported. The team will identify which servers can be consolidated and the timeframe to complete the move.

Monthly Update: September SCON Business Council Meetings that were scheduled for 9/12/12 and the 9/26/12 were both cancelled. The next meeting will be 10/10/12.

Accomplishments This Reporting Period

- On-going Server OP's Readiness validation
- Completed implementation plan workshops
- Continued progress on Implementation Plan deliverable

Planned Accomplishments – Tasks in Progress

- Complete Network implementation & testing – Phase two
- Finish server OP's readiness validation
- Finish the implementation plan
- Begin Application Installs

Project Issues / Risks and Mitigation

- **Issues with Mitigation Plan:** None
- **Risks:** R09 – Oracle upgrade of 10 to 11g – Pending Closed
 R11 – 2003 32 bit to 2008 64 bit – Pending Closed
 R12 – Duration to install Oracle 11g RAC – impacted by DR testing
 T01 – Patching & Service Packs have not been validated on application on server ACGB101 due to firmware/hardware issue on legacy server
- **Items Requiring Management Attention/Escalation:** None

Critical Path Tasks/Milestones/Deliverables	Baseline End	Projected End Date
Final approval of SCON-GBI (Affinity #1) DAD #3 (Implementation Plan Completed)	08/07/12	10/15/12
Infrastructure has completed OP’s readiness check & is production ready Milestone: GTA – SCON-GBI (Affinity #1) SCON	09/12/12	10/26/12
Agency begins application rebuilds on servers	Start – 09/24/12 End – 10/29/12	Start – 10/29/12 End – 11/30/12
Execute Testing Scripts – 1 st UAT	Start – 10/30/12 End – 12/04/12	Start – 12/03/12 End – 01/11/13

7. CRIMINAL HISTORY/IDENTIFICATION SERVICES

a. Fingerprint Cards Received/Processed

Document	Received September	Received FY2013	Processed September	Processed FY2013
Criminal Cards	494	2,171	466	2,003
Electronic Criminal	41,495	128,534	39,613	123,136
Juvenile Criminal	46	167	42	159
Electronic Juvenile	201	525	179	466
Applicant Cards	260	987	257	895
Electronic Applicant	26,253	86,586	25,524	84,058
TOTAL	68,749	218,970	66,081	210,717

b. Significant Productivity Data

	September	FY2013
AFIS Searches (Criminal, Applicant & Juvenile)	66,245	211,777
AFIS Hits (Criminal, Applicant & Juvenile)	30,016 (45%)	100,774 (48%)

c. Live Scan (Electronic Submissions) Activity – September

1. Agencies transmitting electronically – **359** (490 devices)
2. Agency added: None
3. On average, during the month, live scan represented **99%** of total electronic and hard card criminal receipts.
4. On average, during the month, live scan represented **99%** of the total applicant electronic and hard card receipts.

d. AFIS Latent Activity

Inquiries September:	66,064
