Georgia Authorized Central Storage (ACS) Program Update

https://gbi.georgia.gov/meth-container-program

4th Quarter FY2021 (April 1 to June 30, 2021)

No hazardous lab waste was submitted to Georgia ACS sites during the 4th quarter.

The DEA Training Division has once again started offering ACS training to state and local personnel. An ACS course has not been scheduled for Georgia this year; however, slots in an upcoming ACS Course being held in Tennessee are being made available for Georgia personnel.

PLANS AND PROGRAM DEVELOPMENT

CHILD FATALITY SYSTEM REVIEW PROJECT

Project Description - The Child Fatality Review (CFR) Unit requested an enhancement to their current process to capture Medical Examiners (ME) data for child related deaths in the State of Georgia and have requested additional reporting capabilities.

Monthly Update - The project sponsor has decided to suspend efforts on this project because of the incompletion and pending status of numerous project requirements and expressed concerns that the original requirements will be considered outdated at the estimated time of project implementation. The project will be reconsidered if IT resources are available to address the required scope of work.

## CUSTOMER RELATIONSHIP MANAGEMENT (CRM)

Project Description - The CRM Application Project will provide a single source of historical interaction with external customers and will provide GCIC end users the ability to search, track and report customer interactions throughout business units.

Monthly Update - There are no updates this month.

CUSTOMER SUPPORT & TRAINING

Project Description - The Customer Support Training group provides training in GCIC programs, GCIC applications, and GCIC/FBI compliance to criminal justice agencies across the State of Georgia. The group extends the option to receive classroom training or training within an e-Learning environment.

Monthly Update - The Training Staff handled 85 phone calls, 929 emails, 30 crystal reports and managed LMS user account additions. Multiple webinars and one-on-one trainings are being completed to meet State of Georgia training needs.

GBI - GCIC Criminal Justice Training

Virtual/Classroom Trainings: 10
Individuals Trained: 268
Training Hours: 37

GBI Learning Management System (LMS)

Category	Value
Georgia Criminal Street Gang Database	5
Human Trafficking Awareness Training	1
National Incident Based Reporting System (NIBRS)	0
Protective Order Registry	43
Sexual Harassment for Employees	13

Security Awareness & CJIS Network Certification (LMS)

Category	Value
Security Awareness Training and Awareness Statement	3518
CJIS Network Operator Certification	1929
CJIS Network Operator Recertification Exam	0

16

GEORGIA APPLICANT PROCESSING SERVICE (GAPS) PROJECT

Project Description - The Information Services section of GCIC is seeking to obtain the services of a qualified and experienced vendor to provide an applicant fingerprinting solution that will electronically capture and submit applicant fingerprints to the Automated Fingerprint Identification System (AFIS). The selected vendor shall also handle receiving fingerprint search results and disseminating results to the requestor.

Monthly Update - There are no updates this month.

GEORGIA LAW ENFORCEMENT MESSAGE SWITCH (GLEMS)

Project Description - The message switch provides a means of communication between federal, state, and local law enforcement agencies throughout the state of Georgia, the United States, and other countries, and to take advantage of new features and advances in technology. GCIC is looking to upgrade or replace this system.

Monthly Update - Project review is held weekly. The project team continues to work with NCIC and Nlets to establish a connection. Once completed, the vendor can complete interface setup and GBI can resume testing. Discovery meetings have been held to discuss the work required to connect to AIX, SOR, GDC, DDS/DOR and CCH interfaces.

HUMAN RESOURCE (HR) TIMESHEET PROJECT

Project Description - Enhancement of the application used by non-sworn units of the GBI for tracking time.

Monthly Update - The programmer is testing development of the scheduled retention process requirement (which includes retaining data for up to 5 years) and continues to work on the remaining business requirements.

NATIONAL INCIDENT-BASED REPORTING SYSTEM (NIBRS) PROJECT

Project Description - The National Incident Based Reporting System (NIBRS) collects law enforcement data on each single incident and arrest for each offense for which specific facts are collected. GBI is in the process of replacing the current UCR summary-based system with this system.

Monthly Update - Optimum completed the GA Bias Crime changes and GBI will start testing the changes in July. At this time, agencies are not ready to begin submitting bias crime data, but Optimum created a work around to mitigate a direct impact by flagging the agency type (as FBI NIBRS or GA Bias Crime). The GBI has approved the current 2019 GA Publication and the implementation will align with deployment of the GA Bias Crime report. Once completed, the vendor will work on the 2020 GA Publication.

RAP BACK PROJECT

Project Description - The Rap Back project will provide the ability to receive ongoing status notifications of criminal history activity reported on individuals holding positions of trust. Georgia's Rap Back System will include the retention of applicant fingerprints, the implementation of an FBI Rap Back Subscription on such prints, and the creation of a validation process for authorized entities to manage such subscriptions.

Monthly Update - The AFIS vendor is ready to switch over to the "live" system but is waiting for Thales to complete the projected changes. Thales UAT has been suspended until July 1 until change requests submitted by GBI are complete. The GCIC Team responded to the FBI Audit Division for Appendix 2 approval to formally submit Rap Back transactions.

SERVER REFRESH

Project Description - GBI is working in collaboration with GTA with the replacement, installation and configuration of several server hardware replacements and software installs.

Monthly Update - Weekly meetings to determine work that GBI must complete for the server refresh project continue. Tickets are being entered to request the opening of communication ports, firewall access and database transitions. The GCIC IT team has completed testing, server configuration, software installs and setup for the new hardware. Work continues towards converting the existing Crystal Reports to SQL Server Reporting Services (SSRS).
