

**WHITE MALES WITHOUT DNA MATCH - Descriptions of Remains – Walker County**

#38 over 45 years, white male, 5 ft 4 in to 5 ft 11 in  
died in hospital wearing hospital gown  
lower denture plate with zig-zag wire where molars & premolars would be severe old trauma (possibly car wreck)  
old fracture right shoulder/arm with metal plate and screws  
possible old right wrist fracture (radius) arthritis  
right wrist and hand, right knee, left shoulder healed  
fractures of 4 lower left ribs  
3 neck vertebra fused likely  
embalmed  
died Feb-Apr 1999 Nov 2000-Feb 2001 does not  
match any submitted DNA

#45B adult, 5 ft 7 in to 5 ft 11 in  
intermediate build  
bowed shins (fibula or smaller lower leg bone) – possibly bow legged  
died Mar 2000-Nov 2000  
does not match any submitted DNA to point of unique identity

#49A over 55 years, male, 5 ft 5 in to 5 ft 9 in, intermediate build  
stiff neck (collapsed lower neck vertebra)  
arthritis right knee mild arthritis low back  
light blue pajama top, “MacGregor Classic” brand died May  
1998-June 1999  
does not match any submitted DNA to point of unique identity

#50 over 55 years, likely elderly, white (possibly black) male  
5 ft 7 in to 5 ft 9 in, intermediate build  
no upper teeth  
healing fracture left fibula (small lower leg bone) arthritis both knees  
and both ankles, right shoulder, and spine stiff neck – severe arthritis  
lower neck pair of black shoes  
light color socks  
four golden rings: 2 with multiple clear stones, 1 with single clear stone, & 1 band died  
May 1998-June 1999  
does not match any submitted DNA to point of unique identity  
**UNLIKELY DNA MATCH**

#55 brown fine hair  
autopsied died Mar  
1998- Mar 2000  
does not match any submitted DNA to point of unique identity

#56A older adult

**WHITE MALES WITHOUT DNA MATCH - Descriptions of Remains – Walker County**

missing all right lower molars and first right lower premolar, missing all left lower teeth  
missing central lower teeth – only right lower eyetooth and first premolar remain  
**DNA STATUS PENDING**

#85 over 55 years, probably male, possibly black, 5 ft 9 in to 5 ft 11 in heavy set or muscular  
orange or black hair with tight curl  
severe arthritis spine, left knee, and right foot with fused mid to upper back (stiff) light pale blue pajamas  
died May 1998-Jun 1999  
does not match any submitted DNA to point of unique identity

#91 over 50 years, male, 5 ft 10 in to 6 ft 4 in, muscular or heavysset/large frame severe arthritis spine  
died Apr 1999-May 2000  
does not match any submitted DNA to point of unique identity

#114 adult over 50 years, white male, 5 ft 9 in to 6 ft, medium build  
light brown hair  
prior open chest surgery (heart or possibly lung) with metal staples (possible bypass)  
missing left upper second premolar  
no fillings (except possibly right upper second molar)  
died Apr 1998-Dec 1999  
does not match any submitted DNA to point of unique identity

#116 over 30 years, white male  
fine light brown to blonde hair  
missing all upper teeth  
healing broken nose (weeks to months prior to death)  
unknown date of death does not match any submitted DNA

#125 over 55 years, white male, 5 ft 4 in to 5 ft 10 in  
brown sock  
rib fractures  
compressed vertebrae – would have lost height (become shorter) extensive spinal arthritis  
missing right upper first and second molars

**WHITE MALES WITHOUT DNA MATCH - Descriptions of Remains – Walker  
County**

missing left upper first premolar and left upper first and second molars missing right lower wisdom tooth, right lower first premolar, and right lower first molar silver fillings right upper first premolar and left upper wisdom tooth silver fillings right lower second premolar and right lower second molar silver fillings both left lower premolars and left lower first and second molars died Nov 1999-Dec 2000

does not match any submitted DNA

#132 40-55 years, white male, 5 ft 9 in to 6 ft, medium to large frame autopsied missing all wisdom teeth right lower outer front tooth discolored silver fillings right upper second premolar and left upper first & second molars silver fillings right and left lower first and second molars died Jan-March 1999 does not match any submitted DNA

#140 older adult, probably white, probably male, 5 ft 5 in to 5 ft 7 in missing all upper teeth healed left brain surgery (craniotomy), months to years before death possible old fracture outside left foot (5<sup>th</sup> toe side) significant arthritis spine – “stiff” back arthritis right knee died May 1998-Jun1999 does not match any submitted DNA to point of unique identity

#148C adult male, 5 ft 11 in to 6 ft 3 in, heavysset/large frame or muscular significant arthritis knee and ankle inflammation of lining covering bone died Apr 1998-Dec 1999 does not match any submitted DNA to point of unique identity

#150 over 50 years, male, 5 ft 8 in to 6 ft 4 in, medium build probably died in hospital – 2 illegible ID bands arthritis both knees (worse in left knee) died Apr 1998-Dec 1999 does not match any submitted DNA to point of unique identity

#153 over 50 years, white, possibly male, 5 ft 5 in to 5 ft 9 in, medium build missing all upper teeth with full upper denture plate missing both lower wisdom teeth missing right lower second premolar and right lower missing both left lower premolars and first left lower molar

**WHITE MALES WITHOUT DNA MATCH - Descriptions of Remains – Walker County**

old healed jaw fracture on left side (near premolars) autopsied  
possible smoker mild arthritis spine died Apr 1999-May 2000  
does not match any submitted DNA to point of unique identity

#162 adult male, 5 ft 6 in to 6 ft, heavyset/large frame or muscular arthritis  
both knees

very stiff back (spine fused from upper chest to pelvis)  
embalmed

diaper

died Apr 1999- May 2000 does not match  
any submitted DNA

#165 45-65 years, white male, 5 ft 8 in to 6 ft 2 in, medium build short  
grey hair

right upper wisdom tooth not erupted missing right upper second  
premolar and right upper first and second molars  
missing all left upper molars, all left lower molars, and left lower second premolar  
missing right lower inner front tooth missing right lower second molar and wisdom  
tooth gold crowns both left upper premolars gold crown left lower first premolar  
gold crown right lower second premolar and right lower first and second molars arthritis  
upper and lower spine died Apr 1999-May 2000 does not match any submitted DNA

#176 over 55 years, male, 5 ft 11 in to 6 ft 2 in, large frame/heavyset or  
muscular severe arthritis calcified ligaments and tendons  
possible kidney problems possibly Paget's disease of bone died May  
1998-Jun 1999 does not match any submitted DNA

#184 over 50 years, male, 5 ft 4 in to 5 ft 6 in, heavyset/large frame or muscular  
bony bumps growing into mouth from sides of hard palate only eyetooth  
remaining on right upper

missing all three right upper molars and both right upper premolars missing both  
right upper front teeth

missing left upper second premolar and all three left upper molars  
Apr 1998-Dec 1999

does not match any submitted DNA to point of unique identity

#186 over 45 years, white male, 5 ft 8 in to 6 ft 3 in  
bony eyebrows  
squared chin

**WHITE MALES WITHOUT DNA MATCH - Descriptions of Remains – Walker County**

missing all upper teeth  
missing all right and left lower molars and right lower second premolar  
missing both lower central teeth probably no fillings arthritis elbow and wrist  
long sleeve, button front shirt with cuffs  
died Apr 1999-May 2000 does not match any submitted DNA  
to point of unique identity

#187 over 55 years, white male, 5 ft 10 in to 6 ft, medium build  
probably died in hospital illegible ID band  
missing all lower teeth with implants right and left eyeteeth and front teeth removable  
lower bridge (from right lower first molar to left lower first molar) missing right and  
left upper wisdom teeth  
missing right upper second molar and all left upper molars missing  
all four upper front teeth with implants both outer front teeth  
upper bridge extending from right eyetooth to front teeth to left eyetooth (porcelain crown)  
old healed major trauma – possibly car/motorcycle crash  
multiple arm and leg fractures multiple rib fractures  
arthritis left knee, right hip, and back – “stiff” at hips and pelvis  
blue blanket died Apr 1999-  
May 2000  
does not match any submitted DNA to point of unique identity

#188 over 45 years, male, 5 ft 7 in to 5 ft 11 in, heavysset/large frame or muscular missing  
most upper teeth; only right eyetooth, right center front tooth, & left premolar  
prior major trauma (healed) – possibly car/motorcycle crash old  
healed fractures of five right ribs old healed fractures of two ribs  
with bony knobs possible old fracture right lower leg at or near  
ankle severe arthritis backbone – “stiff” back  
arthritis both shoulders, both hips, and right elbow  
extreme arthritis right ankle and both knees underpants with  
elastic waistband  
died Apr 1999-May 2000  
does not match any submitted DNA to point of unique identity

**WHITE MALES WITHOUT DNA MATCH - Descriptions of Remains – Walker County**

#193 45-65 years, white, 5 ft 4 in to 5ft 11 in  
long grey or dark blonde hair bony nodule on  
hard palate in mouth

missing all three right upper molars and right upper first premolar  
missing right upper outer front tooth

missing left upper eyetooth, both left upper premolars, and left upper second and third molars

Died May 2001-Oct 2001

does not match any submitted DNA

#204 25-40 years, male, 5 ft 6 in to 5 ft 9 in, medium build  
dark color suit (jacket and slacks), “Giorgio Lant’angelo” brand  
white briefs underwear embalmed

probable bone marrow donation site right pelvic bone right ankle  
area with old fracture – didn’t set well (probably limped) died Nov  
1999-Dec 2000 does not match any submitted DNA to point of  
unique identity

#208 over 50 years, white male, 5 ft 10 to 5 ft 11 in, probably very large/heavy short  
grey-black hair

probably died in hospital (possibly nursing home) missing all  
three molars and both premolars on both sides of jaw missing  
right upper teeth from eyetooth back missing left upper both premolars  
and all three molars

missing both left front upper teeth

plastic fillings left eyetooth and right upper outer front tooth prior open  
heart/bypass surgery with vein donation from right leg wearing two  
hospital gowns died Jun-Dec 2001

does not match any submitted DNA to point of unique identity

#210 30-50 years, white male, 5 ft 4 in to 5 ft 10 in  
dark, straight hair, ¾ inch long

missing right upper first and third molars, left upper first premolar, and left upper wisdom tooth missing  
left and right lower second and third molars missing left and right lower first premolar  
silver fillings right upper second molar and right upper first premolar silver fillings left  
upper second premolar and left upper first and second molars silver fillings left lower first  
molar and left lower first premolar silver fillings right lower second premolar and right  
lower wisdom tooth porcelain crowns all four upper front teeth and left upper eyetooth (with  
three tooth bridge) porcelain crown left lower eyetooth died May-Oct 2000

does not match any submitted DNA to point of unique identity

**WHITE MALES WITHOUT DNA MATCH - Descriptions of Remains – Walker County**

- #211A adult, 5ft 3 in to 5 ft 7 in, medium build  
died May-Oct 201  
does not match any submitted DNA to point of unique identity
- #222 over 40 years, male, 5 ft 1 in, heavysset/large frame or muscular  
missing all upper teeth  
slight to moderate arthritis backbone – “stiff back” probably  
chest/abdomen autopsy – head not autopsied  
probably died in hospital (possibly nursing home) hospital gown  
possibly smoked “Salem” cigarettes died Mar-  
Dec 2001  
does not match any submitted DNA to point of unique identity
- #224 over 50 years, male, 5 ft 7 in to 5 ft 11 in  
missing *at least* allright lower teeth from front to wisdom tooth (may be missing more)  
severe arthritis neck and upper back – “stiff” neck and upper back arthritis both  
shoulders  
arthritis in both knees but more severe in right knee  
light brown pants  
light color, short sleeve, button front shirt, “Wedgfield” brand  
boxer shorts underwear, “Fruit of the Loom” brand died  
Jan-July 2000  
does not match any submitted DNA to point of unique identity
- #236 17-25 years, male, 5 ft 9 in to 6 ft  
probably died suddenly – from gunshot wound or heart disease  
autopsied  
died Jan-July 2000  
does not match any submitted DNA to point of unique identity
- #237 35-45 years, white male, heavysset/large frame or muscular  
old, healed broken nose dark blue fabric  
shirt size 44 “Hanes” brand underwear  
mildly stiff back missing left upper  
second molar

**WHITE MALES WITHOUT DNA MATCH - Descriptions of Remains – Walker County**

missing left lower first and second molars and right lower first molar missing both lower front middle teeth silver filling left upper first molar teeth in very good shape with few fillings  
autopsied  
probably died suddenly – from heart disease (possibly wounds)  
died Nov 1999-Dec 2000  
does not match any submitted DNA to point of unique identity

#238 over 50 years, white male, 5 ft 6 in to 5 ft 9 in, medium build  
balding with short grey-brown hair  
missing all teeth embalmed (eyes caps) no major bone trauma or disease pair of socks  
briefs underwear, “Fruit of the Loom” brand  
possibly died at Erlanger hospital – hospital sheet died Nov 1999-Dec 2000 does not match any submitted DNA

#240(80C2)

white male, adult, medium build  
silver filling *at least* right upper first molar (no other fillings right upper teeth) died Mar-Dec 2001

**DNA STATUS PENDING**

#244 over 50 years, white male, *very heavy*, 5 ft 11 in to 6 ft 5 in significant arthritis with fused vertebrae – “stiff back” partial upper denture plate (acrylic) – second molar and all four front teeth missing right upper wisdom tooth and right upper second molar missing left upper wisdom tooth  
missing all four upper front teeth and left upper eyetooth missing left lower inner front tooth  
missing left lower wisdom tooth and left lower first molar missing right lower first molar and right lower second molar silver fillings right upper eyetooth and both right upper premolars silver fillings both left upper premolars and left upper first and second molars  
silver fillings left lower second molar, both left lower premolars, and left lower eyetooth silver fillings right upper second premolar and right upper wisdom tooth light color boxer shorts  
died Feb-May 2000  
does not match any submitted DNA to point of unique identity

**WHITE MALES WITHOUT DNA MATCH - Descriptions of Remains – Walker County**

#245 over 40 years, white male, 5 ft 6 in to 6 ft 1 in, heavysset/large frame or muscular missing all teeth

multicolor tattoo of cobra on left forearm probable

gallbladder surgery (metal clips in abdomen) arthritis

right shoulder – possible old injury

metal rod in left thigh with five metal screws (four are the same size) dark color pants

“window pane” style plaid long sleeve, dress style shirt, size large with 16-16½ neck

XL size T-shirt, “Fruit of the Loom” brand

dark color socks

died Feb-May 2000

does not match any submitted DNA

#250 adult, middle aged, male, 5 ft 8 in to 5 ft 9 in, small to medium build, thin

short to medium length dark brown hair

four old, healed rib fractures

32 waist x 32 inseam, “Levi’s” 505 straight leg, regular fit jeans horizontally striped (blue, green, red, & white) long sleeve, button front shirt, “Dockers” brand socks

white color T-shirt, size XL (46-48), “Hanes” Special Edition brand white

boxers underwear, small size (30-32), “Hanes” brand 2 photographs (printed on Kodak paper) with body

died Jun 1997-Mar 1998

does not match any submitted DNA to point of unique identity

#258 adult male

medium length grey hair and grey moustache missing all teeth

possibly died in facility served by “Angelica Healthcare” – sheet with body delay between death and service/viewing – possibly embalmed

died Nov 2000-Dec 2001

does not match any submitted DNA

#261 white male, adult, 5 ft 6 in to 5 ft 8 in, medium build

medium length, dark brown hair old, healed fracture

middle of left thigh

missing right upper wisdom tooth and left lower wisdom tooth

silver fillings upper first and second molars on both sides

**WHITE MALES WITHOUT DNA MATCH - Descriptions of Remains – Walker County**

silver fillings right lower second premolar and right lower first and second molars  
silver filling left lower second molar embalmed  
one inch scar over right eyebrow  
½ by ¾ inch sideways “L” over left eyebrow with adjacent ¾ inch scar outer left forehead  
dark jeans pants, 44 waist by 30 inseam dark belt  
light color plaid shirt  
white size 40 briefs underwear, “Fruit of the Loom” brand  
died Nov 2000-Dec 2001  
does not match any submitted DNA to point of unique identity

#262 adult medium length red-brown  
hair upper and lower partial denture  
plates  
missing upper and lower (all four) wisdom teeth on both sides missing  
right upper second molar and both right upper premolars missing both  
left upper premolars and left upper first molar  
missing lower second premolars and lower first and second molars on both sides  
silver filling right upper eyetooth  
plastic fillings upper eyetooth on both sides and upper center front tooth on both sides gold  
filling left lower eyetooth  
porcelain crowns right upper first molar, right upper outside front tooth, and left upper eyetooth  
porcelain crown right lower first premolar gold crowns right upper and lower  
second molars  
root canal right upper first molar likely died in  
nursing home or possibly hospital  
hospital gown lace nightgown died Nov  
2000-Dec 2001 does not match any  
submitted DNA

#279 over 45 years, white male, 5 ft 9 in to 6 ft 3 in, medium build  
dark straight hair missing all teeth  
arthritis left hip and backbone – “stiff” hip and back  
probably died in hospital or nursing home  
hospital gown no major bone trauma or disease  
died Mar-Nov 2001 does not match any  
submitted DNA

#301 adult

**WHITE MALES WITHOUT DNA MATCH - Descriptions of Remains – Walker County**

prior brain surgery with squared hole cut in side (parietal window and burr holes) missing *at least* right upper and right lower wisdom teeth silver fillings *at least* left upper first premolar and left upper first molar

plastic fillings left upper outside front tooth, left upper eyetooth, and right upper first premolar  
porcelain crown *at least* left upper second premolar

metal crowns *at least* left upper second molar and right lower second premolar  
metal crown right lower first and second molars

died Jan 1998-Mar 1999 does not  
match any submitted DNA

#304 over 50 years male, heavysset/large frame or muscular  
mild arthritis upper back arthritis both knees

died Jun-Sep 2001

does not match any submitted DNA to point of unique identity

#312 over 45 years, 5 ft 3 in to 5 ft 6 in old fracture left collar bone, healed crooked – possible bump on collarbone old fracture right upper arm, healed crooked – possible bony knob or bend in bone old bone infection right upper arm artificial right hip

died Jun-Sep 2001

does not match any submitted DNA to point of unique identity

#313 elderly adult, white male, 5 ft 7 in to 5 ft 10 in medium length grey hair missing all teeth arthritis spine – “stiff back” clothing resembles a uniform: light color, short sleeve, button front shirt, 16½ inch neck, “Red Kap” brand dark color pants, size 40 waist pair dark socks

light color cotton briefs underwear, “Hanes” brand dark  
color leather belt died Jun-Sep 2001

does not match any submitted DNA

#315 over 55 years, white male, 5 ft 7 in to 6 ft 1 in, medium build  
missing upper wisdom teeth on both sides missing right lower first  
molar and right lower wisdom tooth silver fillings right upper  
eyetooth and left lower wisdom tooth

gold fillings right upper second premolar and right upper first and second  
molars gold fillings left upper first premolar and left upper first and second  
molars gold fillings both left lower premolars and both right lower premolars  
porcelain crowns left upper middle front tooth and left upper second premolar gold

**WHITE MALES WITHOUT DNA MATCH - Descriptions of Remains – Walker County**

crowns left lower first and second molars and right lower first and second molars root  
canals left upper first molar and left lower first molar significant arthritis  
backbone – “stiff back” multiple bony nodules in mouth on jawbone and hard  
palate light color cotton T-shirt died Jun-Sep 2001

**DNA STATUS PENDING**

#327 over 40 years, white male, heavyset/large frame or muscular recent  
preparation for crown left upper second molar shortly before death  
missing upper wisdom teeth on both sides

silver fillings both right upper premolars and left upper first premolar plastic filling  
right upper eyetooth porcelain crowns right upper second premolar and right upper  
first molar gold crown right upper second molar and metal crown right upper first  
molar died Jun-Sep 2001

does not match any submitted DNA to point of unique identity

#328 over 45 white, probably male, heavyset/large frame or muscular no  
upper teeth with upper denture plate in place  
heavy smoker died Jun-  
Sep 2001

does not match any submitted DNA to point of unique identity

#2006 adult, medium build

old fracture, left arm above wrist, healed at angle (possible bend or bony knot)

**NO DNA MATCH POSSIBLE**

Unknown date of death

#2023 adult, possible male, 5 ft 3 in to 5 ft 5 in

right hip bone dying – needed immediate surgical replacement

died Apr 1999-May 2000

does not match any submitted DNA

#2036 adult, possible female, medium build

missing all lower teeth – possibly tooth extracted within 6 months prior to death died Jan-  
July 2000

**DNA STATUS PENDING**

#2046 adult

open heart surgery with wires in breastbone

**WHITE MALES WITHOUT DNA MATCH - Descriptions of Remains – Walker  
County**

severe arthritis backbone, fused from upper to lower back – “stiff” back died Jun  
1997-Mar 1998  
does not match any submitted DNA

#2047 40-60 years, male, 5 ft 5 in to 5 ft 9 in, heavysset/large frame or muscular  
possible left lower leg vein donor site for bypass surgery  
moderate arthritis in knees, slight arthritis elsewhere died Jun  
1997-Mar 1998  
does not match any submitted DNA

#2051 adult  
polo style shirt with pink buttons  
old fractures 2 left middle ribs, healed out of line – possibly deformed or bony knot arthritis  
both shoulders  
significant arthritis lower back – “stiff back” died Jun  
1997-Mar 1998  
does not match any submitted DNA to point of unique identity

#2055 adult  
teeth broken off (both left upper front, both left upper premolars, all three left upper molars)  
left upper eyetooth intact died Jun 1997-Mar 1998  
does not match any submitted DNA
