pair of black shoes
light color socks
four golden rings: 2 with multiple clear stones, 1 with single clear stone, & 1 band
died May 1998-June 1999
does not match any submitted DNA to point of unique identity
UNLIKELY DNA MATCH
- #55 brown fine hair
autopsied
died Mar 1998- Mar 2000
does not match any submitted DNA to point of unique identity
- #56A older adult
missing all right lower molars and first right lower premolar, missing all left lower teeth
missing central lower teeth – only right lower eyetooth and first premolar remain
DNA STATUS PENDING

BLACK MALES WITHOUT DNA MATCH - Descriptions of Remains– Walker County

- #85 over 55 years, probably male, possibly black, 5 ft 9 in to 5 ft 11 in
heavy set or muscular
orange or black hair with tight curl
severe arthritis spine, left knee, and right foot with fused mid to upper back (stiff)
light pale blue pajamas
died May 1998-Jun 1999
does not match any submitted DNA to point of unique identity
- #89 over 55 years, black male, about 6 ft 1 in, heavy set or muscular
arthritis left shoulder and back (“stiff”)
probably died in hospital or nursing home
hospital gown
possibly had soft (fabric) restraints on arms
possibly named “Henry” or doctor was named “Henry”
died May 1998-Jun 1999
does not match any submitted DNA to point of unique identity
- #91 over 50 years, male, 5 ft 10 in to 6 ft 4 in, muscular or heavysset/large frame
severe arthritis spine
died Apr 1999-May 2000
does not match any submitted DNA to point of unique identity
- #134 over 55 years, black male, 5 ft 8 in to 6 ft 2 in, medium build
dark brown, coarse, curly hair
missing all upper teeth
missing both left lower premolars and all three left lower molars
missing lower left front tooth
missing all three left lower molars
hunch back

severe arthritis
 fused pelvis and spine
 severe spine arthritis (ankylosing spondylitis)
colostomy
possible kidney problems
calcified ligaments at both mid-thighs
“Angelica Healthcare” sheet
died Jan-Apr 1999
does not match any submitted DNA to point of unique identity
- #148C adult male, 5 ft 11 in to 6 ft 3 in, heavysset/large frame or muscular
significant arthritis knee and ankle
inflammation of lining covering bone
died Apr 1998-Dec 1999
does not match any submitted DNA to point of unique identity
- #150 over 50 years, male, 5 ft 8 in to 6 ft 4 in, medium build
probably died in hospital – 2 illegible ID bands

BLACK MALES WITHOUT DNA MATCH - Descriptions of Remains– Walker County

- arthritis both knees (worse in left knee)
died Apr 1998-Dec 1999
does not match any submitted DNA to point of unique identity
- #162 adult male, 5 ft 6 in to 6 ft, heavyset/large frame or muscular
arthritis both knees
very stiff back (spine fused from upper chest to pelvis)
embalmed
diaper
died Apr 1999- May 2000
does not match any submitted DNA
- #176 over 55 years, male, 5 ft 11 in to 6 ft 2 in, large frame/heavyset or muscular
severe arthritis
calcified ligaments and tendons
possible kidney problems
possibly Paget's disease of bone
died May 1998-Jun 1999
does not match any submitted DNA
- #180 over 55 years, black male, 5 ft 3 in to 5 ft 9 in, medium build
missing all teeth
extensive arthritis
died Apr 1998-Dec 1999
does not match any submitted DNA to point of unique identity
- #184 over 50 years, male, 5 ft 4 in to 5 ft 6 in, heavyset/large frame or muscular
bony bumps growing into mouth from sides of hard palate
only eyetooth remaining on right upper
 missing all three right upper molars and both right upper premolars
 missing both right upper front teeth
missing left upper second premolar and all three left upper molars
Apr 1998-Dec 1999
does not match any submitted DNA to point of unique identity
- #188 over 45 years, male, 5 ft 7 in to 5 ft 11 in, heavyset/large frame or muscular
missing most upper teeth; only right eyetooth, right center front tooth, & left premolar
prior major trauma (healed) – possibly car/motorcycle crash
 old healed fractures of five right ribs
 old healed fractures of two ribs with bony knobs
 possible old fracture right lower leg at or near ankle
severe arthritis backbone – “stiff” back
arthritis both shoulders, both hips, and right elbow
extreme arthritis right ankle and both knees
underpants with elastic waistband
died Apr 1999-May 2000
does not match any submitted DNA to point of unique identity
- #204 25-40 years, male, 5 ft 6 in to 5 ft 9 in, medium build

BLACK MALES WITHOUT DNA MATCH - Descriptions of Remains– Walker County

- dark color suit (jacket and slacks), “Giorgio Lant’angelo” brand
white briefs underwear
embalmed
probable bone marrow donation site right pelvic bone
right ankle area with old fracture – didn’t set well (probably limped)
died Nov 1999-Dec 2000
does not match any submitted DNA to point of unique identity
- #211A adult, 5ft 3 in to 5 ft 7 in, medium build
died May-Oct 201
does not match any submitted DNA to point of unique identity
- #222 over 40 years, male, 5 ft 1 in, heavysset/large frame or muscular
missing all upper teeth
slight to moderate arthritis backbone – “stiff back”
probably chest/abdomen autopsy – head not autopsied
probably died in hospital (possibly nursing home)
hospital gown
possibly smoked “Salem” cigarettes
died Mar-Dec 2001
does not match any submitted DNA to point of unique identity
- #224 over 50 years, male, 5 ft 7 in to 5 ft 11 in
missing *at least* allright lower teeth from front to wisdom tooth (may be missing more)
severe arthritis neck and upper back – “stiff” neck and upper back
arthritis both shoulders
arthritis in both knees but more severe in right knee
light brown pants
light color, short sleeve, button front shirt, “Wedgefield” brand
boxer shorts underwear, “Fruit of the Loom” brand
died Jan-July 2000
does not match any submitted DNA to point of unique identity
- #236 17-25 years, male, 5 ft 9 in to 6 ft
probably died suddenly – from gunshot wound or heart disease
autopsied
died Jan-July 2000
does not match any submitted DNA to point of unique identity
- #250 adult, middle aged, male, 5 ft 8 in to 5 ft 9 in, small to medium build, thin
short to medium length dark brown hair
four old, healed rib fractures
32 waist x 32 inseam, “Levi’s” 505 straight leg, regular fit jeans
horizontally striped (blue, green, red, & white) long sleeve, button front shirt, “Dockers” brand
socks
white color T-shirt, size XL (46-48), “Hanes” Special Edition brand
white boxers underwear, small size (30-32), “Hanes” brand
2 photographs (printed on Kodak paper) with body
died Jun 1997-Mar 1998

BLACK MALES WITHOUT DNA MATCH - Descriptions of Remains– Walker County

does not match any submitted DNA to point of unique identity

- #258 adult male
medium length grey hair and grey moustache
missing all teeth
possibly died in facility served by “Angelica Healthcare” – sheet with body
delay between death and service/viewing – possibly embalmed
died Nov 2000-Dec 2001
does not match any submitted DNA
- #262 adult
medium length red-brown hair
upper and lower partial denture plates
missing upper and lower (all four) wisdom teeth on both sides
missing right upper second molar and both right upper premolars
missing both left upper premolars and left upper first molar

lace nightgown
died Nov 2000-Dec 2001
does not match any submitted DNA
- #301 adult
prior brain surgery with squared hole cut in side (parietal window and burr holes)
missing *at least* right upper and right lower wisdom teeth
silver fillings *at least* left upper first premolar and left upper first molar
plastic fillings left upper outside front tooth, left upper eyetooth, and right upper first premolar
porcelain crown *at least* left upper second premolar
metal crowns *at least* left upper second molar and right lower second premolar
metal crown right lower first and second molars
died Jan 1998-Mar 1999
does not match any submitted DNA
- #304 over 50 years male, heavysset/large frame or muscular
mild arthritis upper back
arthritis both knees
died Jun-Sep 2001
does not match any submitted DNA to point of unique identity
- #312 over 45 years, 5 ft 3 in to 5 ft 6 in
old fracture left collar bone, healed crooked – possible bump on collarbone

BLACK MALES WITHOUT DNA MATCH - Descriptions of Remains– Walker County

- old fracture right upper arm, healed crooked – possible bony knob or bend in bone
old bone infection right upper arm
artificial right hip
died Jun-Sep 2001
does not match any submitted DNA to point of unique identity
- #2006 adult, medium build
old fracture, left arm above wrist, healed at angle (possible bend or bony knot)
NO DNA MATCH POSSIBLE
Unknown date of death
- #2023 adult, possible male, 5 ft 3 in to 5 ft 5 in
right hip bone dying – needed immediate surgical replacement
died Apr 1999-May 2000
does not match any submitted DNA
- #2036 adult, possible female, medium build
missing all lower teeth – possibly tooth extracted within 6 months prior to death
died Jan-July 2000
[DNA STATUS PENDING](#)
- #2046 adult
open heart surgery with wires in breastbone
severe arthritis backbone, fused from upper to lower back – “stiff” back
died Jun 1997-Mar 1998
does not match any submitted DNA
- #2047 40-60 years, male, 5 ft 5 in to 5 ft 9 in, heavysset/large frame or muscular
possible left lower leg vein donor site for bypass surgery
moderate arthritis in knees, slight arthritis elsewhere
died Jun 1997-Mar 1998
does not match any submitted DNA
- #2051 adult
polo style shirt with pink buttons
old fractures 2 left middle ribs, healed out of line – possibly deformed or bony knot
arthritis both shoulders
significant arthritis lower back – “stiff back”
died Jun 1997-Mar 1998
does not match any submitted DNA to point of unique identity
- #2055 adult
teeth broken off (both left upper front, both left upper premolars, all three left upper molars)
left upper eyetooth intact
died Jun 1997-Mar 1998
does not match any submitted DNA
