

WHITE MALES WITHOUT DNA MATCH - Descriptions of Remains– Walker County

- #38 over 45 years, white male, 5 ft 4 in to 5 ft 11 in
died in hospital
wearing hospital gown
lower denture plate with zig-zag wire where molars & premolars would be
severe old trauma (possibly car wreck)
old fracture right shoulder/arm with metal plate and screws
possible old right wrist fracture (radius)
arthritis right wrist and hand, right knee, left shoulder
healed fractures of 4 lower left ribs
3 neck vertebra fused
likely embalmed
died Feb-Apr 1999 Nov 2000-Feb 2001
does not match any submitted DNA
- #45B adult, 5 ft 7 in to 5 ft 11 in
intermediate build
bowed shins (fibula or smaller lower leg bone) – possibly bow legged
died Mar 2000-Nov 2000
does not match any submitted DNA to point of unique identity
- #49A over 55 years, male, 5 ft 5 in to 5 ft 9 in, intermediate build
stiff neck (collapsed lower neck vertebra)
arthritis right knee
mild arthritis low back
light blue pajama top, “MacGregor Classic” brand
died May 1998-June 1999
does not match any submitted DNA to point of unique identity
- #50 over 55 years, likely elderly, white (possibly black) male
5 ft 7 in to 5 ft 9 in, intermediate build
no upper teeth
healing fracture left fibula (small lower leg bone)
arthritis both knees and both ankles, right shoulder, and spine
stiff neck – severe arthritis lower neck
pair of black shoes
light color socks
four golden rings: 2 with multiple clear stones, 1 with single clear stone, & 1 band
died May 1998-June 1999
does not match any submitted DNA to point of unique identity
UNLIKELY DNA MATCH
- #55 brown fine hair
autopsied
died Mar 1998- Mar 2000
does not match any submitted DNA to point of unique identity
- #56A older adult
missing all right lower molars and first right lower premolar, missing all left lower teeth
missing central lower teeth – only right lower eyetooth and first premolar remain

WHITE MALES WITHOUT DNA MATCH - Descriptions of Remains– Walker County

DNA STATUS PENDING

- #85 over 55 years, probably male, possibly black, 5 ft 9 in to 5 ft 11 in
heavy set or muscular
orange or black hair with tight curl
severe arthritis spine, left knee, and right foot with fused mid to upper back (stiff)
light pale blue pajamas
died May 1998-Jun 1999
does not match any submitted DNA to point of unique identity
- #91 over 50 years, male, 5 ft 10 in to 6 ft 4 in, muscular or heavyset/large frame
severe arthritis spine
died Apr 1999-May 2000
does not match any submitted DNA to point of unique identity
- #114 adult over 50 years, white male, 5 ft 9 in to 6 ft, medium build
light brown hair
prior open chest surgery (heart or possibly lung) with metal staples (possible bypass)
missing left upper second premolar
no fillings (except possibly right upper second molar)
died Apr 1998-Dec 1999
does not match any submitted DNA to point of unique identity
- #116 over 30 years, white male
fine light brown to blonde hair
missing all upper teeth
healing broken nose (weeks to months prior to death)
unknown date of death
does not match any submitted DNA
- #125 over 55 years, white male, 5 ft 4 in to 5 ft 10 in
brown sock
rib fractures
compressed vertebrae – would have lost height (become shorter)
extensive spinal arthritis
missing right upper first and second molars
missing left upper first premolar and left upper first and second molars
missing right lower wisdom tooth, right lower first premolar, and right lower first molar
silver fillings right upper first premolar and left upper wisdom tooth
silver fillings right lower second premolar and right lower second molar
silver fillings both left lower premolars and left lower first and second molars
died Nov 1999-Dec 2000
does not match any submitted DNA
- #132 40-55 years, white male, 5 ft 9 in to 6 ft, medium to large frame
autopsied
missing all wisdom teeth
right lower outer front tooth discolored
silver fillings right upper second premolar and left upper first & second molars

WHITE MALES WITHOUT DNA MATCH - Descriptions of Remains– Walker County

- silver fillings right and left lower first and second molars
died Jan-March 1999
does not match any submitted DNA
- #140 older adult, probably white, probably male, 5 ft 5 in to 5 ft 7 in
missing all upper teeth
healed left brain surgery (craniotomy), months to years before death
possible old fracture outside left foot (5th toe side)
significant arthritis spine – “stiff” back
arthritis right knee
died May 1998-Jun1999
does not match any submitted DNA to point of unique identity
- #145 45-75 years, white male, 5 ft 8 in to 6 ft, large/heavysset or muscular frame
missing all upper teeth
probably died in hospital
 blue and white ID band with name imprinted
 probably born July 1921
 probably died 1997
 name partially legible on ID “...ITT”
 doctor’s name partially legible on ID “...OOKSBANK, RONALD C”
 orange wrist band “ P 7881”
arthritis right hand and severe left hand
severe arthritis shoulder and mild arthritis spine
died Apr 1999-May 2000
does not match any submitted DNA to point of unique identity
- #148C adult male, 5 ft 11 in to 6 ft 3 in, heavysset/large frame or muscular
significant arthritis knee and ankle
inflammation of lining covering bone
died Apr 1998-Dec 1999
does not match any submitted DNA to point of unique identity
- #150 over 50 years, male, 5 ft 8 in to 6 ft 4 in, medium build
probably died in hospital – 2 illegible ID bands
arthritis both knees (worse in left knee)
died Apr 1998-Dec 1999
does not match any submitted DNA to point of unique identity
- #153 over 50 years, white, possibly male, 5 ft 5 in to 5 ft 9 in, medium build
missing all upper teeth with full upper denture plate
missing both lower wisdom teeth
missing right lower second premolar and right lower
missing both left lower premolars and first left lower molar
old healed jaw fracture on left side (near premolars)
autopsied
possible smoker
mild arthritis spine
died Apr 1999-May 2000

WHITE MALES WITHOUT DNA MATCH - Descriptions of Remains– Walker County

- does not match any submitted DNA to point of unique identity
- #162 adult male, 5 ft 6 in to 6 ft, heavyset/large frame or muscular
arthritis both knees
very stiff back (spine fused from upper chest to pelvis)
embalmed
diaper
died Apr 1999- May 2000
does not match any submitted DNA
- #165 45-65 years, white male, 5 ft 8 in to 6 ft 2 in, medium build
short grey hair
right upper wisdom tooth not erupted
missing right upper second premolar and right upper first and second molars
missing all left upper molars, all left lower molars, and left lower second premolar
missing right lower inner front tooth
missing right lower second molar and wisdom tooth
gold crowns both left upper premolars
gold crown left lower first premolar
gold crown right lower second premolar and right lower first and second molars
arthritis upper and lower spine
died Apr 1999-May 2000
does not match any submitted DNA
- #176 over 55 years, male, 5 ft 11 in to 6 ft 2 in, large frame/heavyset or muscular
severe arthritis
calcified ligaments and tendons
possible kidney problems
possibly Paget's disease of bone
died May 1998-Jun 1999
does not match any submitted DNA
- #184 over 50 years, male, 5 ft 4 in to 5 ft 6 in, heavyset/large frame or muscular
bony bumps growing into mouth from sides of hard palate
only eyetooth remaining on right upper
 missing all three right upper molars and both right upper premolars
 missing both right upper front teeth
missing left upper second premolar and all three left upper molars
Apr 1998-Dec 1999
does not match any submitted DNA to point of unique identity
- #186 over 45 years, white male, 5 ft 8 in to 6 ft 3 in
bony eyebrows
squared chin
missing all upper teeth
missing all right and left lower molars and right lower second premolar
missing both lower central teeth
probably no fillings
arthritis elbow and wrist

WHITE MALES WITHOUT DNA MATCH - Descriptions of Remains– Walker County

- long sleeve, button front shirt with cuffs
died Apr 1999-May 2000
does not match any submitted DNA to point of unique identity
- #187 over 55 years, white male, 5 ft 10 in to 6 ft, medium build
probably died in hospital
illegible ID band
missing all lower teeth with implants right and left eyeteeth and front teeth
removable lower bridge (from right lower first molar to left lower first molar)
missing right and left upper wisdom teeth
missing right upper second molar and all left upper molars
missing all four upper front teeth with implants both outer front teeth
upper bridge extending from right eyetooth to front teeth to left eyetooth (porcelain crown)
old healed major trauma – possibly car/motorcycle crash
multiple arm and leg fractures
multiple rib fractures
arthritis left knee, right hip, and back – “stiff” at hips and pelvis
blue blanket
died Apr 1999-May 2000
does not match any submitted DNA to point of unique identity
- #188 over 45 years, male, 5 ft 7 in to 5 ft 11 in, heavysset/large frame or muscular
missing most upper teeth; only right eyetooth, right center front tooth, & left premolar
prior major trauma (healed) – possibly car/motorcycle crash
old healed fractures of five right ribs
old healed fractures of two ribs with bony knobs
possible old fracture right lower leg at or near ankle
severe arthritis backbone – “stiff” back
arthritis both shoulders, both hips, and right elbow
extreme arthritis right ankle and both knees
underpants with elastic waistband
died Apr 1999-May 2000
does not match any submitted DNA to point of unique identity
- #193 45-65 years, white, 5 ft 4 in to 5ft 11 in
long grey or dark blonde hair
bony nodule on hard palate in mouth
missing all three right upper molars and right upper first premolar
missing right upper outer front tooth
missing left upper eyetooth, both left upper premolars, and left upper second and third molars
Died May 2001-Oct 2001
does not match any submitted DNA
- #204 25-40 years, male, 5 ft 6 in to 5 ft 9 in, medium build
dark color suit (jacket and slacks), “Giorgio Lant’angelo” brand
white briefs underwear
embalmed
probable bone marrow donation site right pelvic bone
right ankle area with old fracture – didn’t set well (probably limped)

WHITE MALES WITHOUT DNA MATCH - Descriptions of Remains– Walker County

- died Nov 1999-Dec 2000
does not match any submitted DNA to point of unique identity
- #208 over 50 years, white male, 5 ft 10 to 5 ft 11 in, probably very large/heavy
short grey-black hair
probably died in hospital (possibly nursing home)
missing all three molars and both premolars on both sides of jaw
missing right upper teeth from eyetooth back
missing left upper both premolars and all three molars
missing both left front upper teeth
plastic fillings left eyetooth and right upper outer front tooth
prior open heart/bypass surgery with vein donation from right leg
wearing two hospital gowns
died Jun-Dec 2001
does not match any submitted DNA to point of unique identity
- #210 30-50 years, white male, 5 ft 4 in to 5 ft 10 in
dark, straight hair, ¾ inch long
missing right upper first and third molars, left upper first premolar, and left upper wisdom tooth
missing left and right lower second and third molars
missing left and right lower first premolar
silver fillings right upper second molar and right upper first premolar
silver fillings left upper second premolar and left upper first and second molars
silver fillings left lower first molar and left lower first premolar
silver fillings right lower second premolar and right lower wisdom tooth
porcelain crowns all four upper front teeth and left upper eyetooth (with three tooth bridge)
porcelain crown left lower eyetooth
died May-Oct 2000
does not match any submitted DNA to point of unique identity
- #211A adult, 5ft 3 in to 5 ft 7 in, medium build
died May-Oct 201
does not match any submitted DNA to point of unique identity
- #222 over 40 years, male, 5 ft 1 in, heavyset/large frame or muscular
missing all upper teeth
slight to moderate arthritis backbone – “stiff back”
probably chest/abdomen autopsy – head not autopsied
probably died in hospital (possibly nursing home)
hospital gown
possibly smoked “Salem” cigarettes
died Mar-Dec 2001
does not match any submitted DNA to point of unique identity
- #224 over 50 years, male, 5 ft 7 in to 5 ft 11 in
missing *at least* allright lower teeth from front to wisdom tooth (may be missing more)
severe arthritis neck and upper back – “stiff” neck and upper back
arthritis both shoulders
arthritis in both knees but more severe in right knee

WHITE MALES WITHOUT DNA MATCH - Descriptions of Remains – Walker County

- light brown pants
light color, short sleeve, button front shirt, “Wedgefield” brand
boxer shorts underwear, “Fruit of the Loom” brand
died Jan-July 2000
does not match any submitted DNA to point of unique identity
- #236 17-25 years, male, 5 ft 9 in to 6 ft
probably died suddenly – from gunshot wound or heart disease
autopsied
died Jan-July 2000
does not match any submitted DNA to point of unique identity
- #237 35-45 years, white male, heavysset/large frame or muscular
old, healed broken nose
dark blue fabric shirt
size 44 “Hanes” brand underwear
mildly stiff back
missing left upper second molar
missing left lower first and second molars and right lower first molar
missing both lower front middle teeth
silver filling left upper first molar
teeth in very good shape with few fillings
autopsied
probably died suddenly – from heart disease (possibly wounds)
died Nov 1999-Dec 2000
does not match any submitted DNA to point of unique identity
- #238 over 50 years, white male, 5 ft 6 in to 5 ft 9 in, medium build
balding with short grey-brown hair
missing all teeth
embalmed (eyes caps)
no major bone trauma or disease
pair of socks
briefs underwear, “Fruit of the Loom” brand
possibly died at Erlanger hospital – hospital sheet
died Nov 1999-Dec 2000
does not match any submitted DNA
- #240(80C2)
white male, adult, medium build
silver filling *at least* right upper first molar (no other fillings right upper teeth)
died Mar-Dec 2001
DNA STATUS PENDING
- #244 over 50 years, white male, *very heavy*, 5 ft 11 in to 6 ft 5 in
significant arthritis with fused vertebrae – “stiff back”
partial upper denture plate (acrylic) – second molar and all four front teeth
missing right upper wisdom tooth and right upper second molar
missing left upper wisdom tooth

WHITE MALES WITHOUT DNA MATCH - Descriptions of Remains – Walker County

- missing all four upper front teeth and left upper eyetooth
missing left lower inner front tooth
missing left lower wisdom tooth and left lower first molar
missing right lower first molar and right lower second molar
silver fillings right upper eyetooth and both right upper premolars
silver fillings both left upper premolars and left upper first and second molars
silver fillings left lower second molar, both left lower premolars, and left lower eyetooth
silver fillings right upper second premolar and right upper wisdom tooth
light color boxer shorts
died Feb-May 2000
does not match any submitted DNA to point of unique identity
- #245 over 40 years, white male, 5 ft 6 in to 6 ft 1 in, heavyset/large frame or muscular
missing all teeth
multicolor tattoo of cobra on left forearm
probable gallbladder surgery (metal clips in abdomen)
arthritis right shoulder – possible old injury
metal rod in left thigh with five metal screws (four are the same size)
dark color pants
“window pane” style plaid long sleeve, dress style shirt, size large with 16-16½ neck
XL size T-shirt, “Fruit of the Loom” brand
dark color socks
died Feb-May 2000
does not match any submitted DNA
- #250 adult, middle aged, male, 5 ft 8 in to 5 ft 9 in, small to medium build, thin
short to medium length dark brown hair
four old, healed rib fractures
32 waist x 32 inseam, “Levi’s” 505 straight leg, regular fit jeans
horizontally striped (blue, green, red, & white) long sleeve, button front shirt, “Dockers” brand
socks
white color T-shirt, size XL (46-48), “Hanes” Special Edition brand
white boxers underwear, small size (30-32), “Hanes” brand
2 photographs (printed on Kodak paper) with body
died Jun 1997-Mar 1998
does not match any submitted DNA to point of unique identity
- #258 adult male
medium length grey hair and grey moustache
missing all teeth
possibly died in facility served by “Angelica Healthcare” – sheet with body
delay between death and service/viewing – possibly embalmed
died Nov 2000-Dec 2001
does not match any submitted DNA
- #261 white male, adult, 5 ft 6 in to 5 ft 8 in, medium build
medium length, dark brown hair
old, healed fracture middle of left thigh
missing right upper wisdom tooth and left lower wisdom tooth

WHITE MALES WITHOUT DNA MATCH - Descriptions of Remains– Walker County

- silver fillings upper first and second molars on both sides
silver fillings right lower second premolar and right lower first and second molars
silver filling left lower second molar
embalmed
one inch scar over right eyebrow
½ by ¾ inch sideways “L” over left eyebrow with adjacent ¾ inch scar outer left forehead
dark jeans pants, 44 waist by 30 inseam
dark belt
light color plaid shirt
white size 40 briefs underwear, “Fruit of the Loom” brand
died Nov 2000-Dec 2001
does not match any submitted DNA to point of unique identity
- #262 adult
medium length red-brown hair
upper and lower partial denture plates
missing upper and lower (all four) wisdom teeth on both sides
missing right upper second molar and both right upper premolars
missing both left upper premolars and left upper first molar
missing lower second premolars and lower first and second molars on both sides
silver filling right upper eyetooth
plastic fillings upper eyetooth on both sides and upper center front tooth on both sides
gold filling left lower eyetooth
porcelain crowns right upper first molar, right upper outside front tooth, and left upper eyetooth
porcelain crown right lower first premolar
gold crowns right upper and lower second molars
root canal right upper first molar
likely died in nursing home or possibly hospital
hospital gown
lace nightgown
died Nov 2000-Dec 2001
does not match any submitted DNA
- #279 over 45 years, white male, 5 ft 9 in to 6 ft 3 in, medium build
dark straight hair
missing all teeth
arthritis left hip and backbone – “stiff” hip and back
probably died in hospital or nursing home
hospital gown
no major bone trauma or disease
died Mar-Nov 2001
does not match any submitted DNA
- #301 adult
prior brain surgery with squared hole cut in side (parietal window and burr holes)
missing *at least* right upper and right lower wisdom teeth
silver fillings *at least* left upper first premolar and left upper first molar
plastic fillings left upper outside front tooth, left upper eyetooth, and right upper first premolar
porcelain crown *at least* left upper second premolar
metal crowns *at least* left upper second molar and right lower second premolar

WHITE MALES WITHOUT DNA MATCH - Descriptions of Remains – Walker County

- metal crown right lower first and second molars
died Jan 1998-Mar 1999
does not match any submitted DNA
- #304 over 50 years male, heavyset/large frame or muscular
mild arthritis upper back
arthritis both knees
died Jun-Sep 2001
does not match any submitted DNA to point of unique identity
- #312 over 45 years, 5 ft 3 in to 5 ft 6 in
old fracture left collar bone, healed crooked – possible bump on collarbone
old fracture right upper arm, healed crooked – possible bony knob or bend in bone
old bone infection right upper arm
artificial right hip
died Jun-Sep 2001
does not match any submitted DNA to point of unique identity
- #313 elderly adult, white male, 5 ft 7 in to 5 ft 10 in
medium length grey hair
missing all teeth
arthritis spine – “stiff back”
clothing resembles a uniform:
 light color, short sleeve, button front shirt, 16½ inch neck, “Red Kap” brand
dark color pants, size 40 waist
pair dark socks
light color cotton briefs underwear, “Hanes” brand
dark color leather belt
died Jun-Sep 2001
does not match any submitted DNA
- #315 over 55 years, white male, 5 ft 7 in to 6 ft 1 in, medium build
missing upper wisdom teeth on both sides
missing right lower first molar and right lower wisdom tooth
silver fillings right upper eyetooth and left lower wisdom tooth
gold fillings right upper second premolar and right upper first and second molars
gold fillings left upper first premolar and left upper first and second molars
gold fillings both left lower premolars and both right lower premolars
porcelain crowns left upper middle front tooth and left upper second premolar
gold crowns left lower first and second molars and right lower first and second molars
root canals left upper first molar and left lower first molar
significant arthritis backbone – “stiff back”
multiple bony nodules in mouth on jawbone and hard palate
light color cotton T-shirt
died Jun-Sep 2001
DNA STATUS PENDING
- #327 over 40 years, white male, heavyset/large frame or muscular
recent preparation for crown left upper second molar shortly before death

WHITE MALES WITHOUT DNA MATCH - Descriptions of Remains– Walker County

- missing upper wisdom teeth on both sides
silver fillings both right upper premolars and left upper first premolar
plastic filling right upper eyetooth
porcelain crowns right upper second premolar and right upper first molar
gold crown right upper second molar and metal crown right upper first molar
died Jun-Sep 2001
does not match any submitted DNA to point of unique identity
- #328 over 45 white, probably male, heavyset/large frame or muscular
no upper teeth with upper denture plate in place
heavy smoker
died Jun-Sep 2001
does not match any submitted DNA to point of unique identity
- #2006 adult, medium build
old fracture, left arm above wrist, healed at angle (possible bend or bony knot)
NO DNA MATCH POSSIBLE
Unknown date of death
- #2023 adult, possible male, 5 ft 3 in to 5 ft 5 in
right hip bone dying – needed immediate surgical replacement
died Apr 1999-May 2000
does not match any submitted DNA
- #2036 adult, possible female, medium build
missing all lower teeth – possibly tooth extracted within 6 months prior to death
died Jan-July 2000
[DNA STATUS PENDING](#)
- #2046 adult
open heart surgery with wires in breastbone
severe arthritis backbone, fused from upper to lower back – “stiff” back
died Jun 1997-Mar 1998
does not match any submitted DNA
- #2047 40-60 years, male, 5 ft 5 in to 5 ft 9 in, heavyset/large frame or muscular
possible left lower leg vein donor site for bypass surgery
moderate arthritis in knees, slight arthritis elsewhere
died Jun 1997-Mar 1998
does not match any submitted DNA
- #2051 adult
polo style shirt with pink buttons
old fractures 2 left middle ribs, healed out of line – possibly deformed or bony knot
arthritis both shoulders
significant arthritis lower back – “stiff back”
died Jun 1997-Mar 1998
does not match any submitted DNA to point of unique identity

WHITE MALES WITHOUT DNA MATCH - Descriptions of Remains– Walker County

#2055 adult

teeth broken off (both left upper front, both left upper premolars, all three left upper molars)

left upper eyetooth intact

died Jun 1997-Mar 1998

does not match any submitted DNA
